Embilipitiya, Sri Lanka

Senior UI/UX & Web Designer with 10+ years of experience spanning digital product design, branding, graphic design and illustration.

Currently working as a Senior UI/UX Designer and Team Lead, overseeing web projects from initial discovery and wire-framing through prototyping and final design delivery.

Combining strong visual design foundations with practical UI/UX expertise, I create intuitive digital experiences, consistent design systems and developer-ready interfaces. Experienced in leading design teams, maintaining quality standards and collaborating with cross-functional teams.

WORK EXPERIENCE

Senior UI/UX Designer & Team Lead

Web Lankan — Oct 2023 – Present

- Lead web design projects from initial information gathering and concept development through wireframing, prototyping, and final design delivery.
- Establish strong visual direction, typography, layout systems, and consistent design patterns across digital experiences.
- Develop and maintain organized design systems and reusable components to support consistency and efficient design workflows.
- Collaborate with marketing, QA, and engineering teams to translate project requirements into engaging, intuitive, and implementation-ready web experiences.
- Review implementation quality and work closely with developers to ensure the final experience reflects the intended design.

UI/UX Designer

Antyra Solutions — Apr 2020 – Oct 2023

- Transitioned from illustration into UI/UX design, bringing a strong foundation in branding, visual storytelling, and composition to digital experiences.
- Designed website structures, wireframes, user interfaces, and interactive prototypes for a range of web projects.
- Translated brand and marketing requirements into clear visual concepts and intuitive user experiences.
- Worked across visual design and interaction design to create consistent, user-focused, and developer-ready interfaces.

Senior Graphic Designer & Conceptual Illustrator

Balmond Studio / Clan B — Sep 2015 – Apr 2020

- Developed brand identities, visual concepts, and creative assets for advertising campaigns, interior design projects, and print applications.
- Worked alongside Sri Lankan and UK art directors to develop creative directions from early concepts and sketches through to final artwork.
- Applied strong typography, layout, composition, and visual storytelling principles across a range of brand and communication materials.
- Created digital illustrations and vector assets to support distinctive visual identities and campaign concepts.
